Excerpt from Johnsons Table Talk: A Selection of His Main Topics and Opinions Taken From Boswells Life and Arranged by W. A. Lewis Bettany

When all allowances have been made, and all compliments paid, when the standard Life of Johnson has been praised for its piquant and malicious Ana of distinguished persons, for its Pepys-like revelation of its authors vanities and foibles, as well as for its invaluable view of late eighteenth-century literature and literary men, it must be admitted to base its surest title to immortality on that marvellous collection of its subjects conversations and correspondence which it incorporates. True, Johnsons philosophy is expressed in more formal and deliberate fashion in his satires and in his essays. But London is a mere academic exercise in s?va indignatio; The Vanity of Human Wishes, for all its intensity of moral fervour, retains many crabbed and many commonplace lines. In both poems, indeed, Johnson falls as far behind Pope in pungency as he sinks below Goldsmith in pathos: he is pompous rather than majestic, affected instead of being affecting, and his constant epithets are the least of his offences.
