

Rapture of the Deep: The Art of Ray Troll

For more than two decades, Ray Troll has been luring, hooking, and landing fans around the world with his zany, irreverent, and often surreal art. Featured in museums, galleries, and books, as well as on immensely popular T-shirts, his work part natural history adventure and part underground comic depicts beautiful and accurately drawn fish of all kinds, Northwest Coast totems, Freud and Darwin, fossils, resurrections of extinct animals, and much more. Rapture of the Deep collects some of Troll's best-known art along with many images never before published. The book makes powerful connections between biological diversity, the evolution of life on earth, and the careless habits of people. Rapture of the Deep celebrates Troll's vision with legendary works including *Spawn Till You Die*, *Lifes a Fish and Then You Fry*, and *Bassackwards*, in which fish use money, liquor, and literature as bait to lure humans. Troll's running commentary reveals the thought and inspiration behind his art. Writer Brad Matsen, Troll's longtime coconspirator, adds a lively introduction to the art and life of his sole brother.
