

Electric Storm (A Raven Investigations Novel Book 1)

Everything changed when Raven, a natural born conduit, accidentally walks in on a slave auction. She only wants a night out with her friends before her next case as a paranormal liaison with the police. Instead, she ends up in possession of a shifter and his guardian. When your touch can kill, living with two touchy-feely shifters is a disaster waiting to happen. To make matters worse, a vicious killer is on the loose. As mutilated bodies turn up, she can't help fear that her new acquisitions are keeping secrets from her. The strain of keeping everyone alive, not to mention catching the killer, pushes her tenuous control of her gift and her emotions to their limits. If they hope to survive, they must work together as a pack or risk becoming hunted themselves. A Raven Investigations Novel : Book 1
