

Memories of Ice (The Malazan Book of the Fallen, Book 3)

The ravaged continent of Genabackis has given birth to a terrifying new empire: the Pannion Domin. Like a tide of corrupted blood, it seethes across the land, devouring all. In its path stands an uneasy alliance: Onearms army and Whiskeyjacks Bridgeburners alongside their enemies of old--the forces of the Warlord Caladan Brood, Anomander Rake and his Tiste Andii mages, and the Rhivi people of the plains. But ancient undead clans are also gathering; the Tlan Imass have risen. For it would seem something altogether darker and more malign threatens this world. Rumors abound that the Crippled God is now unchained and intent on a terrible revenge. Marking the return of many characters from Gardens of the Moon and introducing a host of remarkable new players, Memories of Ice is both a momentous new chapter in Steven Eriksons magnificent epic fantasy and a triumph of storytelling.
