

Questing For Dragons

Questing for Dragons is a fun novel about a witty, resourceful and sharp tongued young woman who is mistaken by a handsome yet young and inexperienced knight to be a boy and is hired by him to be his guide on a quest to find the Dragon Lord. She soon finds she needs to continue as a boy as Emperor wants her head, Lord Grim wants her in his bed, and Lady Dazzle wants her dead. And, all because she chose herding the village hogs to avoid marrying decrepit Igor, the richest man in the village. Maybe, she should have chosen Igor.
