

The Spirit is Strong (The Ghost in the Machine Book 1)

Cat Colbourne had been running for five years, losing herself in her work providing medical care to the needy of Africa and other far flung places. The 2010 earthquake in Haiti provides Cat with somewhere else to run to, but on an island that has suffered like no other she finds that it is not just her own past that she needs to run from. Steeped in Vodou and violence, a young boy is the key to Cats own salvation but may prove to be far more. Ancient forces are stirring and the veils between worlds are being torn asunder. The Spirit is Strong is the first part of The Ghost in the Machine.

In fact, as this essay will demonstrate, there is strong evidence against the ghost in the machine theory. Specifically, if the human mind is the product of a ghost in the machine and not the human mind itself, then the ghost in the machine would have to be able to read the same book or watch the same TV show over and over again. This is consistent with the idea of consciousness arising from a spiritual soul not a machine. He could (and does) read the same book or watch the same TV show over
