

The Legend of Sleepy Hollow (Illustrated)

- Illustrated with original works and some of the most famous illustrations made for this classic. Set near the Dutch settlement of Tarry Town in the secluded and mysterious glen of Sleepy Hollow, Ichabod Crane competes with Brom Bones for the attention of the beautiful Katrina. As Ichabod heads home, he is hunted by the Headless Horseman. This creature may be the ghost of a Hessian soldier or something else altogether. Originally written in 1820, Washington Irving's haunting, yet humorous narrative describes the local schoolmaster whose lonely journey home turns into a night of delightful terror when he is met on the road by the Headless Horseman.
