Warning - Explicit sexual content, situations and some violence. With 1840s New Orleans as a backdrop, the story, *Vicious Traditions* tells the story of Desiree Evereld de Comte, who was born in a charred cane field, but by the luck of the draw wound up being raised by her white fathers wife as her own. Desiree grows up to marry Louis Lafontaine, one of the wealthiest men in New Orleans; and, even though he is handsome, kind and generous, and a tender and caring lover, she cannot remain faithful once she has tasted the forbidden fruit of desire... Her desirous ventures lead her into a torrid affair with Ransom Boudreaux; and, as if her life was not already complicated enough... when her desires become darker and deeper, she becomes involved with Marie Laveaus nephew, Myles Laveau- Prince du Sang, fallen on hard times illegitimate heir to the Throne of France...
